

To whom It may concern,
I am offended by the actions taken by the NAB, Television and Radio
broadcasters. I have subscribed to XM radio as a matter of "choice" as in
"Freedom of Choice". I truly believe this is what America was founded for. Don't
you? This "Un American" petition (04-160) sponsored by the NAB is truly in the
intrest of the rich and powerful corporations in America. This appears to
"corporate war tactacts" since XM Radio is also backed by rich and powerful
corporate interests, however, I am a happy XM Radio subscriber and the reason is
that this is a far superior product to anything that the local broadcasters can
offer. Our system of buisness is supposed to be driven by supply and demand, I
demand the services provided by XM radio! Period.
